James Struthers is a charismatic, energetic and entertaining act. With a knack for performance, James has the presence to capture his audience and -- more importantly -- the musicianship to back it up.

Whether solo or with a back-up band, James is a perfect choice for any event -- either as a center-stage performer or a musical backdrop.

*"[A] very soulful voice... this is what you hope for when an artist combines pop, jazz and blues."
- Chris Burke-Gaffney, CBG Artist Development*
